—MANN'S—
PARCHMENT COPYING PAPER.

This Parchment Paper is **MUCH STRONGER** and shows a **CLEARER COPY,** than any other ever made for the purpose. The ink is **LESS LIABLE TO SPREAD,** and can be written upon with a pen.

DIRECTIONS FOR COPYING.

Place a piece of blotting-board under the leaf of Copying Paper; then with brush, wet the leaf. Rub in the surplus water with the hand: then place the written letter on the leaf, (leaving the blotting-paper under the leaf, to take up any excess of water that may yet remain,) place it in the press, and in 10 or 15 seconds a perfect copy will be secured.

☞The leaves **WILL DRY AS SMOOTH AS SILK** by placing the book in the Press after Copying.

☞Place the oil sheets between the copies just made, to prevent blending or setting off.

Another way when many letters are copied.

Procure a tin box with lid to hold 20 blotting pads.

Dip half the lot of blotters in water, let them drain off a few moments; then place a dry blotter between each wet one, give them a few minutes squeeze in Press and they will remain wet for three days; then take an oil sheet, place it to the left; then lay a wet blotter; then turn leaf of Copying over on blotter; then lay your letter on; then another oil sheet, and so on, and you can copy all your letters at one time, thereby saving time. With a little care and experience as to wetting at first, you will be so well pleased, as never to go back to old way.

BOXES FURNISHED IF DESIRED, AT SMALL COST.

Mint of the United States at Philadelphia, Pa.

SUPERINTENDENT'S OFFICE,

2. July 1889

Sir

The following telegram sent you this day is hereby made official:-

"Cashier objects to Count in his department proceeding without representatives from Treasurer's office to verify and seal his vaults"

The Superintendent having left the Mint for the day I beg to add on behalf of the Cashier, and in his own language, the following explanation:-

"The Cashier objects to proceeding with the counting and weighing up of the $8.500.000 in Standard dollars on grounds of economy of time and labor. There has been no accounting in favor

of the new United States Treasurer since his entrance upon his Office. It is probable that he will require an accounting as respects the Coin in the Mint vaults not under seal. The Cashier suggests that a representative of Treasurer U.S. verify weigh and count at the same time with Mr Cross. This may save great trouble should an accounting in behalf of Mr. Houston be ordered.

There are, not under seal about 300 Tons of standard Silver dollars. To verify and repack this will involve the handling of the whole four times - making the gross labor of moving 1200 tons.

The Cashier wants to avoid handling this Coin eight times, or, double

work. It can be packed and sealed up in a vault and be of no further trouble in settlement if a representative of the Treasurer be present"

Indulge me in the further remark that if a counting be ordered by the Treasurer of the U.S. in two or three weeks from now, it will interfere with our very urgent coinage operations at that time by calling off a large number of our working force to help handle this mass of Coin. This temporary but very serious interference with our output of Coin would be averted, if a joint Count could be agreed upon now, between the Director and the Treasurer

Very respectfully

H. C. Hooker

D Mtoa

Mint of the United States at Philadelphia, Pa.,

SUPERINTENDENT'S OFFICE,

July 10th 1889.

Sir.

From the very first, I have taken every possible step to facilitate the payment of July Silver purchases, and to day I shall be able to forward checks to Handy & Harman, Seligman & Co. and the Fourth Natl Bank N. Y. for the entire amount of their sales delivered, though producing trying embarrassment and confusion in the daily entries in my accounts.

In this connection I should add by way of explanation that the cash balances in my hands on June 29th last, including my N. Y. accounts must be held undisturbed pending the annual examinations by the Department officers, and for that reason

it is prudent to exclude all receipts and payments, which would in any degree impair the validity of the accounts to be so examined, until the balances have been verified. These Cash balances cannot be closed and reopened until the Gold and Silver wastages have been declared, and such wastages reimbursed from the appropriations of the expired fiscal year. This makes an inevitable delay of ten days or two weeks. Further; with our limited storage capacity, and so large a quantity of Bars on hand at the close of the fiscal year, it is a very unsafe thing to continue to receive large consignments of similar bars while the Annual settlement is in progress because of the danger of

getting them mixed in the midst of so much handling, by so many men. and thus throwing our accounts into confusion. Our daily statements cannot be made accurately whilst running under two or more dates. VIZ: June 29th and July 1st to 15th. because there can be no daily statements furnished of the Bank accounts. We do not open our books for the business of the coming fiscal year until after the close of the Annual settlements. and to require me to receive and account for consignments of Bullion during that interval when no proper accounts can be kept of the transactions imposes a risk responsibility and embarrassments that ought not to be imposed upon any

4

fiscal Officer of the Government. Informal transactions of such financial magnitude and importance where no proper records can be kept, are an anomaly in Minting operations, and that in legal strictness could not be justly imposed on any bonded Officer of the Government.

Very respectfully.
D. W. R. McFox
Superintendent.

Hon Jas P Kimball.
Director of the Mint.
Washington, D. C.

Mint of the United States at Philadelphia, Pa.

Your inquiries of the 9th inst. for our Engraver, with reference to the manufacture of medals, was referred to that officer, and enclosed herewith I forward you a copy of his reply, giving in detail the information you call for

Very Respectfully

[illegible]

Superintendent

Hon: James P. Kimball
Director of the Mint
Washington
D.C.

Mint of the United States at Philadelphia, Pa.,
ENGRAVERS DEPARTMENT,

10th July 1859

Sir,

In answer to inquiry made by the Director in letter of the 9th inst. would say to the first. The best results are obtained by having the model three times the size of the desired medal.

Not knowing the size of the Francis medal I cannot answer second question, although eighteen inches is entirely too large, my answer to first should be sufficient guide for preparing the model.

In answer to third question, "Whether any copying would be done by eye or the whole mechanically." I would say it makes no difference what size the model may be, there is sure to be plenty of copying to be done by the eye, as while the Hill Reducing machine is of great service, it does not produce finished work, it is a very valuable tool to aid the engraver, nothing more.

The question called third, is fourth and really is two questions

and requires two answers. In answer to first part of this paragraph "How large a medal can be executed on your press" would say, much depends upon the character of the engraving, if very bold in relief three inches is ample, though four is possible. In answer to second part of same paragraph would say the Reducing machine has a possible movement of five inches, but I have never seen any work from the machine as large, and cannot give an opinion of the results if carried to the extreme limits of the machine.

I know from experience the best work of the machine is in the smaller sizes, say up to 2½ in. medal.

When I say the machine has a movement of five inches I mean for the medal.

Very respectfully
Chas E. Barber
Engraver

Hon Daniel M. Fox.

Attest

[illegible] Assayer

[illegible] M. [illegible]

W. A. Steel [illegible]

[illegible] Engraver

[illegible]

[illegible] cup. Catalogue of crucibles and cups, the other articles are of [illegible] importance as to quality, or price. But I do not imagine that [illegible] concern would care for these apart from the leading articles, [illegible] which I have given my reasons for a preference.

I have thus written at length, with a desire to make it evident [illegible] it is possible, without favoritism or prejudice to prefer an [illegible] well known to us by use, over another not favorably known, [illegible] at a slightly less price, when the magnitude of our operations [illegible] makes the apparent saving appear of [illegible] significance.

Respectfully

D. F. Tuttle

[illegible]

Mint of the United States at Philadelphia

MELTING AND REFINING DEPARTMENT,

Philadelphia, July 12th 1889

Hon D. M. Fox,

Superintendent,

Sir;

Referring to my letter of June 17th relating to the bids for Crucibles, I beg leave to recall your attention to the fact, that the lower bidders submitted no samples, and that you, with a desire to afford them an opportunity to amend their error, addressed a letter to the representative of the Dixon Co. asking for samples.

None have been furnished as yet, and if in hand, some delay must yet occur before they could be tested.

I deem it my duty to report these facts, to aid you in judging of the awards you may recommend to be made

Respectfully

A. R. Tuttle

July 15th 1889

Sir,

I enclose herewith Abstracts for the Ordinary, Refinery and Standard Silver Dollar Accounts for the month of June, (not May as stated in your letter of the 9th inst) the vouchers for which were forwarded on the 9th inst. I cannot transmit an Account Current for the Ordinary & Refinery Expenses, those accounts being still held open to admit vouchers for the reimbursement of wastages of the Operative Officers, which have not yet been ascertained. I enclose an Account Current for the Std Silver Dollar Expenses, and will forward an Account Current for each of the other Accounts as soon as practicable.

Hon. James P. Kimball,
Director of the Mint,
Washington D.C.

Very Respectfully
A. M. C. McFox
Supt.

Mint of the United States at Philadelphia, Pa.
SUPERINTENDENT'S OFFICE.

15 July 1879

Sir

Your confirmation of the appointment of James Riley to a position in the Coiner's department of the Mint, of the 10th inst., gives him the title of "Workman". There is no such title on the pay-rolls of this Mint. (He was asked for as – "Coining Room")

Have the kindness to inform me if it is your intention that the title mentioned in yours, shall be used in Riley's case?

I would feel much obliged if you would give me an early reply to this, as I desire that Riley shall be ready for duty immediately on reopening

Very respectfully

Wm A Fox

Superintendent

July 17th 9

Sir.

In reply to your letter of the 16th inst. I have to say, that Shipment No. 6. from your Office was not received at this Mint in time to include it in the Settlement of the last Fiscal Year's Accounts, and it became necessary to hold it over.

We are now about finishing the Annual Settlement, and will make Report on it as early as possible.

Very Respectfully.

Copy

19th July 1889

Sir,

Upon further examination of the "Hill Reducing Machine," I find ten inches the extreme size for a model. I think it would be well to advise the Director of this fact, as it will be of benefit to him, if he is thinking of having the model for the Francis medal prepared by some Artist out of the Mint.

Very respectfully

Chas E. Barber
Engraver.

SUPERINTENDENT'S OFFICE,

July 25th 1889.

Sir,

In reply to the suggestions on the subject in your letter of the 24th inst. it is proper to explain, that the surplus of $1.96 in coin referred to does not belong to my Bullion account, but to my Cashier's Currency account, and that sum belongs to his overs.

In disbursing the annual appropriations, and in making change over the Counter, which in the large amount of business is done, the Cashier as in all similar transactions is sometimes "Short" and sometimes "Over" in his cash. It so happens that the "Overs" amounted to $1.96 cts. but that pertains to

the currency accounts, and does not belong to the Government. To require a special deposit of the "Overs" would be an anomaly, and by parity of reasoning would require the Government to make good the "shorts."

The proper entry has been made in the Medal accounts, taking up the forty two (42) Lake Superior Bronze Medals which Mr. Corsa found in the possession of the Medal Clerk, and with which he had not been charged.

Very respectfully,

Superintendent.

Post office United States at Philadelphia, Pa.

SUPERINTENDENT'S OFFICE.

3 Aug: 1889

Sir,

By referring to the schedule of proposals for supplies for this Mint for the current fiscal year, heretofore transmitted to you, you will find the two lowest bidders to be Stuyvesant Wainwright of New York, @ 11¼ ¢ per lb. and the Baltimore Copper Smelting & Refining Company @ 11¾ ¢ per lb.

As we cannot take supplies of that kind upon trust, I subjected the Copper offered by Mr Wainwright to a thorough working trial as alloy for gold and silver coins and the result proved unsatisfactory.

I have therefore rejected his pro-
posal and awarded the Contract to the
next lowest bidder The Baltimore Smelt-
ing and Refining Company @ 11 3/4 ¢ a
pound — who have for years past sup-
plied me with Copper, that is entirely
satisfactory in every respect, and,
submit the same for your approval

Very respectfully

Superintendent

Hon: James P. Kimball
Director of the Mint
Washington
D.C.

Mint of the United States at Philadelphia, Pa.,
SUPERINTENDENT'S OFFICE.

3. Aug. 1887

Sir;

I have this afternoon received from Messrs Farrell & a proposal to divide the metallic vault on the first floor in the area of the Mint into two compartments for greater convenience and safety of space, and also to build lattice partitions in the basement vault, dividing it into five Compartments.

This has been approved by Mr Hancock the Superintendent of Construction.

The proposed division of these two vaults into Compartments as described meets my earnest approval.

I herewith submit a copy of their pro=

position for your information. If it meets with your approval will you kindly transmit it to the Supervising Architect for his action.

Farrell & Co., you will observe are anxious that prompt action should be had upon their proposition

Very respectfully

Superintendent

Hon: James P. Kimball
Director of the Mint
Washington
D.C.

Mint of the United States at Philadelphia, Pa.,

SUPERINTENDENT'S OFFICE,

August 3rd 1889.

Daniel M. Fox

Supt. of the United States Mint Phila. Pa.

Dear Sir:

In reply to your verbal request, we will construct 1/2 partition composed of two (2) 1/4 plates of Bessemer Steel securely rivetted together breaking joints dividing the metallic vault in the area of the Mint, forming a new compartment, extending the whole length of the vault and nine (9) feet wide, with a door corresponding to the one provided on the west side of the vault, with an approved lock.

The partition plates extending ten (10) feet high, and the space between the top of the plates and the roof to be filled with lattice work to give proper light and ventilation all of which we will do, in a workmanlike manner, to the satisfaction of yourself and

the supervising Architect for the sum of Eighteen hundred and sixty four Dollars ($1864) providing this proposal is accepted at once.

We will also build four (4) lattice partitions standing across the basement vault on a line with the columns and dividing the vault into five (5) compartments. The lattice partitions to be of 1 1/2" x 3/16" [illegible], securely riveted together and fastened by 2 1/2" x [illegible]" x 3/8" T. bars, each partition to have a door 6'6" x [illegible]6" opening in the clear with an approved key lock. Which we will complete in a workmanlike manner, to the satisfaction of yourself and the supervising Architect, for the sum of Eighteen hundred Dollars ($1800)

Awaiting your pleasure, we remain

Yours truly

Farrell & Co

Approved and Respectfully Recommended

SUPERINTENDENT'S OFFICE,

5 August 1889

Sir;

Your letter of the 2nd. inst. received this morning, inquiring for the War Department as to when the marksmanship medals ordered through your office on the 22nd. April last would be delivered, was referred to our engraver and herewith I transmit a copy of his reply giving full information on the Subject

Very respectfully

H C Hunt

Acting Superintendent

Hon. J. P. Kimball
Director of the Mint
Washington
D.C.

Mint of the United States at Philadelphia, Pa.,

ENGRAVERS' DEPARTMENT,

5th August, 1889.

Sir:

That the Director of the Mint may be able to make a proper reply to the War Department, I would respectfully refer him to my letter of April 25th 1889 which explains the situation very fully.

Since that letter I have completed the Presidential Medal July 25th 1889, today I hope to finish the Indian Peace medal. Although the operations of this Department were stopped for fifteen days for the want of Steam power (during Annual settlement) I have advanced the work on the dies for the War Department medals as expeditiously as possible, and have finished the dies, for the following medals. Design marked A. "Department Marksmanship Second Class Prize". Also design marked B. "Department Marksmanship Third Class Prize". I also have in hand other of these medals and will advance them all as fast

as the nature of the work and other duties of this Depart ment will admit of.

In my letter of April 25th 1889 I roughly estimated that it would take twelve months to prepare the dies for the medals for the War Department, and I do not now think that that estimate was too much, beyond that I cannot fix a day when the dies will be finished.

Very respectfully
Chas. E. Barber.
Engraver.

Hon Daniel W. Fox,
Superintendent

SUPERINTENDENT'S OFFICE

P. Aug. 1889

Sir

We are informed by the Hon. W. H. Bergen M.C., Camden, N. J. that Mr. John R. Howard will appeal to Secretary Windom from Superintendent Pos's award of the Contracts for charcoal for the current fiscal year.

In anticipation of that appeal I take the liberty of herewith enclosing for your information a copy of a correspondence between Mr. Bergen and the Superintendent on that subject

Very respectfully

H. Patterson
Acting Superintendent

Hon: James P. Kimball
Director of the Mint
Washington
D.C.

House of Representatives,
Washington D. C. July 23rd 1859

Hon Daniel M. Fox, Superintendent Mint.
Philadelphia, Pa.

Sir, dear Sir: Mr John R. Rowland of Kirkwood, New Jersey, one of my constituents presents to me that under your advertisement for bids to furnish charcoal for the Philadelphia Mint he has put in a bid for same, and that it was lower than that of any other person. That your advertisement you called for charcoal without specification of kind, but furnished subsequently a specification of kinds of charcoal wanted. That his bid he of course complied with your request in stating what each grade of charcoal was to be furnished at and that his bid based on inspection to be lowest in grades of oak, granulated and pulverized charcoal and the same as the bid of Mr Gandy in the fine charcoal to wit: 12 cents per bushel. That under this form you have seen fit to separate the one article of charcoal according to its kind, and favor Mr. Gandy enough to

to give him the contract for the fine charcoal when he was no lower than Mr. Rowand on same, and only Mr. Rowand the contract for the other kinds of charcoal.

I respectfully called your attention to this matter because it does seem to me that there must be some law like that such an unfair advantage would not certainly be given against Mr. Rowand or any other person who has fairly put in his bid for a single article.

Mr. Rowand states that he commenced furnishing the Mint with charcoal something like ten years ago, and has furnished it ever since with the exception of two years, last year and the year 86 and that in the year 86 Mr. Gardy failed on his contract and that Mr. Rowand completed it without embarrassment to the Mint; and that even last year there were complaints against the coal furnished by Mr Gardy.

He also states that the action you have taken is particularly hard because the real profit in the contract most of it comes from furnishing the fine charcoal. When these things are

considered it does seem that you cannot willingly intend this seeming injustice.

Respectfully

Your obedient Servant

H. Bergen.

Mint of the United States at Philadelphia Pa

SUPERINTENDENT'S OFFICE,

July 25th 1889

Dear Sir.

I have the honor to acknowledge the receipt of your communication of the 23rd inst. with regard to the Mint contracts for charcoal for the current fiscal year. The advertisements for proposals for supplies are transmitted to me for publication by the Secretary of the Treasury and while them under his exclusive control. It would be enormously expensive to give all the items of supplies in the newspapers. Itemized details are reserved for a separate schedule of supplies which is furnished to bidders upon application. In this instance a copy of the schedule was mailed to Mr. Rowand the same day they were received from the printer. I herewith enclose a copy of the schedule for your information. You will observe that upon its face taking the quantities required into consideration the award to Mr. Rowand for at least three items, one of

and of the first item to Mr. Gardy, were not inequitable. Mr. Rowand being the lowest bidder for the last three items, and their bids being the same for the first items: 12 cents per bushel. The Department does not permit me to average the prices in the proposal, and make an award on that average. I am obliged to compare the prices on each item. Of the relative profits on the several classes of Charcoal I have no knowledge, but it appears now that the Pine Charcoal was by all odds the most profitable to the Contractor. From the excitement manifested by Mr. Rowand, it is very evident to my mind now, that I am paying too much for Pine Charcoal. It is also evident that Mr. Rowand could have made a lower bid for the Pine, and thus made sure of the contract, yet have made as much money off the Government as a legitimate business would justify. It is proper to remark that the award is not a matter of arbitrary right, but of sound discretion on the part of the Officer making it. Mr Gardy having been notified of the acceptance

3

of his proposal for Pine Charcoal, I cannot now break his contract except for cause, that is, failure on his part to fulfill it. Consequently the matter must rest as it is. I regret that Mr. Rowand thinks he has some cause for dissatisfaction, but I was not of that impression when the award was made, and I see no cause to change my opinion now. I am

Very respectfully

D. M. Fox.

Sir

I have the honor to acknowledge the receipt of your letter of the 7th inst. transmitting a protest of Congressman Bergen addressed to the Secretary of the Treasury against the Superintendent's division of the award of Charcoal between John R. Rowand and H.T. Gardy.

It will be manifestly improper and impracticable for me in the absence of Superintendent Fox, to undertake to dispose of this question, but the papers will be placed on file and brought to his attention, on his expected return on the 31st inst.

I should add in this connection that H. Gardy gave a bond to guarantee the

execution of his proposal for charcoal, if accepted. That bond is on file and covers his contract

SUPERINTENDENT'S OFFICE,

13: Aug: 1889

Sir,

In reply to your suggestion of the 12th inst. with regard to the coinage of gold dollars I have to inform you that upon the receipt of your requisition for 10'000 gold dollars, without any specific time being fixed, directions were given to have them coined during this current month - August - and they will so be coined, but I am not able at this moment to indicate the precise day when the final deliveries will be made.

The ingots are now in the Assayers hands. As soon as he passes them they will be delivered to the Coiner and worked up as soon as circumstances will permit during this month.

It was supposed under the closing

paragraph of your letter of July 27th that this arrangement would be satisfactory, and we still hope that it will be

Mint of the United States at Philadelphia, Pa.,

SUPERINTENDENT'S OFFICE,

14: Aug'l. 1889

Sir

In our semi-annual requisition for blank books for the current 6 months, was specified a "minor coin order book" for the Cashier. It was supposed at the time that the book then in use would last until the new one could be furnished within the regulation time, but the continuous demand for minor coins has upset the Cashier's calculations. His book is filled up and he is now using loose sheets temporarily.

Under the circumstances I ask for authority to procure a minor coin order book here which can be done on short notice. It will add nothing to the permanent expenses because both books will be needed - one that

have use for them.

Last week we received remittances and deposits for minor coins to the amount of nearly 25,000. dollars and so far this week they amount to $11,120. These orders for minor coins are from all over the country and mostly in small amounts which multiplies the number of entries and fills up a book quicker than would otherwise be the case. This would seem to be a good and sufficient reason for the application now made to procure the book here and I hope it will meet your approval

Sir.

I herewith return Prof W. P. Blake's letter to you of the 9th of June last, referred to the Supt. of the Mint by your endorsement, dated June 11th requesting the trial of a new Nickel Copper alloy, to ascertain whether it is suitable for Coining in dies. It was necessary to have an additional supply of the metal to enable the Coiner to give it an approximately fair test. This occasioned considerable delay, but when it was received, the Coiner gave it as thorough a trial as was practicable.

I herewith transmit a Copy of his report of the result, showing that it is not suitable for Coinage, and giving the reasons why.

Very Respectfully.

Hon James P. Kimball.
Director of the Mint.
Washington, D.C.

Acting Supt.

Aug 13th 9

Hon. D. M. Fox,

Superintendent,

Sir,

I have the honor to report the following relative to the working of an ingot of new nickel copper, submitted for test by W. P. Blake Esq. through the Director of the Mint. The metal rolled down to the required thickness without annealing with no signs of fracture. The fillet after annealing cut hard, the blank showing a rough and wired edge. In the annealing and cleaning process, the blanks showed no marked different results from our own workings. This experiment made with the limited amount of material at my command show that the new metal is not quite as malle-

able as the old alloy, and it does not mill up with a good edge nor does the impress of the dies come up in the Coining Press as perfectly. It can be worked into coin, but unless it should work more kindly in larger quantities, the pieces will lack the neatness and finish of our present coin. The color approximates steel rather than the usual nickel alloy.

Very Respectfully Yours,
W. S. Stack.
Coiner.

August 28th 9

Sir.

Replying to your letter of 27th inst. enclosing a tracing of a part of the Mint building, showing a series of small vaults under the driveway on west side, I have to state that so far as my knowledge of the subject goes, they are merely common vaults for miscellaneous receiving or storage purposes, and of no other purpose that I am aware of except the construction of the rough stone walls necessary to divide that space into compartments.

If any doors are needed our carpenters can make wooden ones or our blacksmiths irons ones sufficient for the purpose. Supt. Fox is absent on vacation, but will return on Saturday next, to his country residence, and be at the Mint on Tuesday

September 2d, when I will bring your letter to his notice, and he will communicate with you more definitely on the subject.

Aug 3rd 9

Hon James P. Kimball
Director of the Mint.
Washington D. C.

Sir:

In herewith transmitting the endorsed coinage statement for the month of Aug. which we think makes a very good showing, it is proper to explain that when in the early part of the month I promised you the desired 10,000 dollars in gold dollars, I had not anticipated so heavy a draft upon us for 190,000 Std silver dollars during the sweltering month of August when the torrid temperature is so prostrating in its effect upon our operatives especially in the adjusting room, in addition to the required Gold dollars. When notice of the quota was received as late as the 1st I realized the difficulty of turning out the entire

ount of the three denominations called for, but upon reflection, I elected to meet the statutory requirement for the standard Silver dollars as the first necessity leaving the gold dollars to be deferred until near the close of the month, hoping that I might be able to work them into this months coinage; but at the last I found this to be impracticable. They will however be coined without fail during the coming week and the few days delay will not work any serious injury or disappointment. It will take thirty picked adjusters (and no others can be intrusted with the work) to adjust 10,000 one dollar blanks and the completion of that task will leave most of them with frayed & bleeding fingers, the pieces are so diminutive and the operation of filing them by hand being therefore a dummy one and beset with difficulties.

Very Respectfully

Sir;

I hereby transmit the oath of office of Miss Sarah E. Hannum recently appointed Adjuster in the Coiner's Department of this Mint

Very respectfully

Superintendent

Hon. S. P. Kimball
Director of the Mint
Washington
D.C.

8. Sept. 87

Sir;

I respectfully suggest that in separating the large vault into compartments the lattice work be run North and South from the transverse girder, and in the line of the columns. This will utilize all the space, requiring but 3 doors and give greater solidity and resistance to strain.

I am assured that this plan will require about the same amount of lattice and will be followed without increased cost over the present contract price. I think any expert will agree that the plan of construction herein suggested will give better satisfaction than any other.

I would also respectfully suggest that the S.E. and S.W. corners of the Vault, - marked A & B respectively on the revised plan - be converted into Compartments, the lattice work to hinge on the Columns on either side of the entrance. This will utilize Corner Spaces and will not interfere with the working Space

Respectfully

Dan'l M. Fox

Superintendent

Mr Joseph B. Hancock
Superintendent of Construction U.S. Mint
Room no. 11 Post Office Building
Philadelphia

14. Sept. 89

Sir;

The current contracts of Joseph Harton for One-cent bronze and five-cent copper-nickel blanks and which will expire Decem. 31. 1889, stand as follows:—

Amount of bronze contract	350.000	Pcs.
Delivered thereon	247.491	"
Balance due	102.509	"
Contract for Nickel blanks	250 000	"
Delivered thereon	201 000	"
Balance due	49.000	"

The latter being now in process of delivery.

Under the steady and pressing demand for one-cent coins, I should have authority to make a requisition upon Mr.

location for an additional 20,000 pounds of one-cent blanks, or for all of the undelivered balance due, and I will thank you for directions to that effect.

It will manifestly become necessary before very long to advertise for proposals and make new Contracts for the delivery of additional amounts of one-cent and five-cent blanks when the present contracts have been exhausted) and I would suggest that advertisements should be inserted in time to permit the opening of proposals sometime in the latter part of this month, say, after the 20th inst.

I will be glad to hear from you on the subject

Very respectfully

Superintendent

Hon. James P. Kimball
Director of the Mint
Washington D.C.

4. Sept 87

Sir;

On my return from vacation I find your communication of the 27th Aug. with reference to a series of small vaults that it has been proposed to place under the driveway on the West side of the Mint building. In reply to your inquiry as to their intended use and necessity I can only say that I was not consulted with regard to them and I do not know who they were put on the plan, nor what purpose they are intended to subserve. The question of their construction is entirely under your own Control and I leave it to your judgment.

Perhaps a further inspection of the

building with reference to its needs, in this connection would be advisable.

Very respectfully

Superintendent

Hon: James H. Windrim
Supervising Architect
Washington
D.C.

P.S. I herewith return the tracing enclosed in your letter.

Mint of the United States at Philadelphia, Pa.
SUPERINTENDENT'S OFFICE.

4. Sept. 89

Sir;

The increase of visitors to this institution has been very much enlarged within the last two years, amounting, as I am informed by the Conductors who have the charge and guidance, to fully 150.000 persons per year.

In view of these facts I feel constrained to ask that the number of Conductors be increased, one; as the Conductors themselves have more than they can attend to within the short space of 3 hours, to wit, from 9 A.M. to 12 M., the great influx just now happening in Strangers coming to the City and of course stopping at one of the great objects of interest

C.

as the Mint is.

Mr Joseph Souder formerly occupied the position of Conductor and is thoroughly familiar with the duties pertaining thereto. I may say that the Hon: J. Donald Cameron, has a desire to see Mr. Souder, who is a reputable gentleman, appointed to that position, at the per diem pay of $3.50, and I hope that this appointment which I ask for may meet with your approval and according submit his name therefor

Very respectfully

[illegible]

Superintendent

Hon: J. P. Kimball
Director of the Mint
Washington
D.C.

4: Sept. 89

Sir;

In reply to the application of Messrs Farrell & Co: for the erection of electric lights in the new large vault in the basement area of the Mint to enable them to see to finish the vault, I have to inform you that our electric plant was entirely dismantled, the wires cut, and the dynamos put out of service to enable Farrell & Co to get room to erect the vault and it will be a matter of considerable difficulty and expense to reëstablish it.

I learn from Mr Hirst the Gas-fitter of the Mint, that he has placed gas lights in that vault and that Farrell

and Co. are now working by the aid of that light and going on to complete the vault and its internal arrangements, so that for the present there would seem to be no further occasion on my part to aid them in this matter

Very Respectfully

Dan G. McFoe

Sir

The blue print handed me touching the subject of a smoke stack submitted to the superintending Architect some time ago and now returned to you, was made at the suggestion of Hon. James P. Kimball, Director of the Mint, by the firm of Paul & Hartmann, Engineers 1233 North Front Street, Phila. Mr Hartmann after consulting with the officials of the Mint obtained from them data as to the requirements of the stack, (and which at their suggestion should be placed at the North West Corner of the Mint property) were submitted to the Director. It is presumed that a communication relative to the same with an estimate of cost accompanied the print. I have no know-

ledge of the communication and estimate, and should advise that the Director or the firm of Taws & Hartmann be requested to present a copy of the same.

My memory is that, the Director Dr Kimball, being present and in consultation with the then Supervising Architect, Hon: William A Pruet, with whom there was some verbal communication with Mr Hartmann.

I return you the blue print and the communication addressed to you under date of Aug. 10. 1889 from Hon: James H. Windrim, Supervising Architect.

9: Sept. 89

Sir;

As soon as practicable after my return, I took up the question of the appeal of John R. Rowand from my award of the contract for Pine Charcoal for the current fiscal year, submitted to me for action by your letter of the 7th Aug. ult°. With a view to effect an amicable arrangement as suggested in the closing paragraph of your letter, I sent for Mr. Yardley, and suggested that the best way out of the difficulty, would be for him to consent to a division of the Contract for Pine charcoal between himself and Mr Rowand. This view did not seem to impress him favorably. He said that the Contract for Pine

Charcoal had been duly awarded to him very justly, he thought, and that he considered himself entitled to its full benefit, and the Conference ended by a refusal on his part to acquiesce in your suggestion. He urged very strenuously that his claim to the Contract was entitled to favorable consideration because his successful competition with Mr Rowand for several years had materially benefited the Government by bringing down the price of Charcoal to the present rates, which he alleged would not have been the case if he had not entered the field as Mr Rowand's competitor. The fact he stated is true that there has been a material reduction in price, and I find upon examining the records that in:—

1864 Mr Rowands contract price was

18 ¢ per bushel; in
1885 he had reduced it to 16 ¢ per bush-
el and from apprehended rivalry on
the part of other persons. In
886 Mr Gardy entered the field as a
Competitor for Charcoal and has been
our Contractor ever since until the
present year and the price has con-
stantly come down under the Compe-
tition thus established to 14, 13, &c
12½, and this year to 12 ¢ a bushel.

Mr Gardy lays great stress upon
this fact and urges that in Consider-
ation of it the Government ought to be li-
beral to him; and that any action in award-
ing to him the Contract (to hem) for pine Char-
coal, giving to Mr Rowand the Contract for
the other three classes of Charcoal was no
more than equitable and fair to both par-

his and that he must insist upon his rights under the contract as awarded to him.

When Mr. Rowand was here some time ago he said the failure to get the Pine Charcoal would make a difference to him of 1000 dollars, showing that under the present rate, - which is the lowest that has been paid for many years past - there must still be a very large profit.

This being the state of the case I report the above facts, and the result of my interview with Mr Gardy for your information and await such further instructions as you may see proper to give

Very respectfully

Sir;

I herewith transmit an explanatory communication from our assayer Mr. Eckfeldt with regard to the discrepancies between the value of gold bars from the Denver Mint, — as determined by their Assays and the Assays at this Mint, — referred to me for investigation by your letter of the 6th inst.

It is obvious that the proper remedy would be to require that Mint, and all other Assay offices, to run their small bars into one large bar, before shipment to this Mint.

In justice to our Assayer, it is proper to add in this connection that the

special assays and reassays reported by him in the enclosure herewith sent, were all made by Mr Eckfeldt, in person, with the coöperation of his assistants and subordinates

Very respectfully
Nathl McAfee
Superintendent

Hon. James P. Kimball
Director of the Mint
Washington
D.C.

Sept 7th 89

Sir

In regard to the letter of the Director of the Mint, calling attention to differences in the value of shipments of Gold bars from Denver; I can say that whenever we make a mass melt of Gold from there or any other assay office, and our assays show any want of uniformity; the bullion is re-assayed, from fresh samples, or re-melted and then assayed. This is our practice also if the assays of such mass, show any discrepancy in the value of the same as compared with the values taken from the invoice of such bars. — The assays as made here may agree perfectly, yet if the value is not up to the value of the invoice the bullion is re-melted

in order to arrive if possible at a more perfect agreement in value.

A case in point occurred this present week. A shipment of Gold was received from Helena, four bars of the same were assayed and reported at the fineness as invoiced, (though one bar was scarcely up to fineness).

The mass upon assay was nearly $100. short in value; re-assays were made from new samples (all agreeing fairly well), finally the mass was re-melted, and a number of assays made, but with almost the same result; the amount of Gold called for was not there, The discrepancy being $88.24.-

I would suggest that not only

the Mint at Denver, but all the Assay-Offices be instructed to melt all the smaller bars into one large bar, and assay such mass before shipment.

I do not think that there is quite enough latitude allowed in reporting many of the bars from the Assay offices, — we frequently find bars assayed here from time to time will just or scarcely hold out in fineness; then if a loss in melting takes place, and no corresponding increase in fineness takes place, there is a shortage in value.

Very respectfully
Jacob B. Eckfeldt

11: Sept: 1889

Respectfully returned to the Director of the Mint with the information that our Mr Eckfeldt had already — in July last — made assays for Capt. Verby of samples from the four statues referred to, at considerable loss of valuable time, and it will not be convenient, under the heavy pressure of his regular duties, to make any further assays so far out of the line of his regular work.

Dan'l McFee

Superintendent

Mint of the United States, Philadelphia, Pa.,
SUPERINTENDENT'S OFFICE,

13. Septem. 89

Sir;

I to day received a remittance from The Peoples Bank of New Orleans of $1000 for 5 p mitel, to relieve the scarcity that exist there for small change. The remittance was accompanied by a letter from the Assistant Treasurer of the (United States) United States at New Orleans, stating that so far from his having a redundancy of those coins on hand he had only $90 in 5 cent nickels and those he had procured a short time before from the Peoples Bank. There being, according to his testimony, no redundancy of these coins in the New Orleans Sub-Treasury, I write to ask if, under the

fact stated, I am at liberty to fill this order from the Peoples Bank for 5-cent nickels.

If upon inquiry, you find that there are any other Sub-Treasuries in which a redundancy of minor coins does not exist, I will thank you to do inform me

Very respectfully

Mint of the United States at Philadelphia, Pa.
ASSAY DEPARTMENT.

September 13th 1889

Sir

I enclose statement of Assays of three shipments of Gold, Nos. 1 & 2 from Denver, and No. 5 from Assay Office at Helena. I have given the assays of the individual bars of each lot (assayed here), as well as that of the 'Compounded bars'.

You will observe from this statement, that several of the bars were reported rather higher than the assay warranted, and when any difference existed between two fineness, the Assay office was given the advantage of such difference. This I think is not quite just to this Mint, and I have reported in this manner only, because there was a discrepancy in the value of the entire lot. Although some bars

Mint of the United States at Philadelphia Pa.
ASSAY DEPARTMENT.
, 18

reported higher than they would be if alone, yet being in a lot, there are others that show a few tenths over; taking the lot together, we find the average is very close.

These slight differences in fineness (less than .5), will not account for the large differences in the values of the Mass melts, particularly the Helena Gold; the fineness of which would have to be increased three thousandths (from 831 i to 834 i), to compensate for the difference. This fineness 834 i was calculated before assaying, as the probable fineness of the mass; and we were much surprised when we saw the result of the assay to be about 831 i; hence the subsequent care taken to arrive at an assay that would, if possible, make our total values correspond

with theirs, as per their statements.

There is another matter in regard to the Gold shipped from Denver that has been brought to my notice, namely in both shipments (1 & 2), the total weight of the Gold would not correspond with the invoiced statement, but was considerably short.

Very respectfully
Jacob B. Eckfeldt
Assayer

SUPERINTENDENT'S OFFICE

10th Sept 87

Sir,

Enclosed herewith I forward a Communication from our Assayer reporting his verified assays of an invoice of gold bars recently received from the Denver Mint

Very respectfully

A. M. Fox
Superintendent

Hon. James P. Kimball
Director of the Mint
Washington
D.C.

September 1[illegible] 6

Sir

An invoice of Gold bars received from Den[illegible]
has just been assayed and reported.
The fineness of the bars as stamped and our assays
are as follows.

Phila. No.	Stamp. fine.	Phila Assay.	823.5	Reported.
483	824	823.5	823.6	823 1/2
4	900	899.4	899.5	899 1/2
5	904 1/2	904.3	904	904
6	857 1/2	857.	857.1	857
7	794	794.1	793.9	794
8	866	866	866.1	866.

Four assaying a half thousandth below the stamped fineness. As a further confirmation and for our own satisfaction, I had new samples taken, and sent them (informally), to the New York Assay office, requesting that they make a "check" Assay.—

They reported as follows.— No. 1- 823 1/2

No. 2 899½. No. 3 904 No 4 857.
No 5 – 794. No 6 866.

No 2 was a trifle weak of the half. —
it averaged .4 !!" —

I have made this statement, for the reason that attention was called to the fact, that there was a shortage in value of two of the Denver shipments (Nos 1 & 2), of the present year.

Very respectfully
Jacob B. Eckfeldt

Mint of the United States at Philadelphia

SUPERINTENDENT'S OFFICE

20. Sept: 87

Sir

I herewith submit for your information and whatever action thereon you may think proper, a communication from our Assayer showing a difference of $21 84 in the gross value of the gold in the last invoice from the United States Assay Office at Helena, Montana, - Shipment No. 7.

Very respectfully

Superintendent

Hon: James P. Kimball
Director of the Mint
Washington
D. C.

September 20th 89

Sir

I notice that in the last invoice of Gold from Helena (Shipment No. 7.) there is a difference of $21.34, in the Gross value of the Gold.-; two of the bars assayed, showing considerable difference in fineness as made here and that of invoice. The fineness of bars as follows.—

	Invoice.	Assays.	Reported
497	701½	702 - 701.6	701½
8	573½	574.3 - 573.9	574
9	516½	517.1 516.6	516½
500	514	514, 513.6 - 514, 514.1	514
1	573½	573.8 573.4 795.6	573½
2	796½	795.6, 795.5, 795.6, 795.8	795½
3	936½	935.7 935.7, 935.8	935½
4 Mar Melt		797. 797.1 797.2 — 797. 797.	797.—

No. 500 was reported at 514, though scarcely up to such fineness. As Nos. 502, & 503 were much below the invoiced report. I had check

Assays made at the New York Assay Office with the following results.

502 795.5, 795.4, 795.5

503 935.8, 935.7

My reason for asking for these check assays, was, not that I had the least doubt of our own assays, but for the satisfaction of having an assay by a disinterested party.

In the letter of the Director of the Mint, of Septr. 10th, there was a statement as follows, "It is well understood that the practice at your institution, is not to render as close a return for fractions on Assay Office bars, as in the case of the Assay Office at New York".

I find from the Assays as made at New

Work, that they would not have made quite so close a return in reporting such arrays as we have made.

Very respectfully
Jacob B. Eckfeldt
Assayer

Hon. Daniel M. Fox

Sept 28th 9

Sir.

In reply to your letter of the 5th inst, relative to the profits on Medals and Proof Coins sold during the Quarter ended June 30th 1869. I have to state, that as the medals referred to, valued at $2.10, were taken up into the account of the Medal Clerk, as stock on hand, and not at the time having been sold, it would seem impracticable to class them as profits.

Very Respectfully
[illegible]

24: Sept. 87

Sir

The continued difference between the fineness of our assays and the stamped fineness of bars from Denver Mint and some of the Western assay Offices, as evidenced by the last shipment - No. 8; that we received from the Denver Mint, has become a matter of such serious importance to those Western institutions, that at the request of our Assayer - whose Communication is herewith enclosed - I take the liberty of forwarding to you the enclosed slips from shipment No. 8, from the Denver Mint, that you may direct such test assays as you think proper for confirmation of our work.

The Assayer will be glad to have

a report from you in time to close the present quarter's accounts

Very respectfully

D. M. Fox

Superintendent

Hon: James R Kimball

SUPERINTENDENT'S OFFICE,

27: Sept: 87

Sir,

I have the honor to acknowledge the receipt of your letter of the 26th inst. enclosing letters from Mrs. George H. Earle & Mr. William Still of this City, dated 2nd and 6th inst. respectively and referred to you by Post Master General Wanamaker, recommending the retention of Mrs. Phebe Earle Gibbons now employed as an Adjuster in this Mint. Mrs Gibbons was appointed to her present position by me and having been attentive and faithful to her duties, I do not know of any reason why she should be displaced & be under any apprehension of removal. I established the rule when I took charge of the Mint, that none of the female employees should

be removed unless for some serious cause which would justify a discharge. I have never removed any of them merely to make a vacancy to give place to somebody else, and I propose to continue to adhere to that established policy which I regard as commendable and just, and calculated to promote the best interests of the Mint Service

Respectfully

Dan'l Fox

Superintendent

William Windom

Mint of the United States at Philadelphia, Pa.,

SUPERINTENDENT'S OFFICE,

27: Sept: 1879

Sir.

Messrs Farrell & the builders of the storage vault in the basement, have applied to proceed with the contract in grading down the corridor in the South portion of the building so that we can without inconvenience, when the vault is ready to store the metal and coin intended to be placed there, do the work on the corridor so that it shall not interfere with the space at the West end thereof for the time being and without impeding the work of the Express Company.

In doing this it seems to me to be necessary that an entrance or opening should be made on the extreme right of

the Corridor to allow of the removal of the debris and also for ventilation. In order to make this entrance and have it properly enclosed, a wooden door or an iron grating – as may be found most convenient – should be constructed, and I desire permission of the Supervising architect to have that portion of the wall covering the space of such door removed, and I write to you under the impression that you having already viewed the particular place, will express your favorable opinion to the Supervising Architect that permission should be given.

Be good enough to communicate this letter I have addressed to you to the department. In the hope that I may be enabled to do this work as early as they can give the subject the consideration it is entitled to.

Very respectfully

D. McCall

SUPERINTENDENT'S OFFICE

10: October 89

Sir;

In reply to your inquiry of the 5th inst. I have to state that we now have a settling-well for the roof-drainage, in the basement immediately North of the West Spiral stair-case. The connections with this well have been severed but should be restored: and for the roof-drainage on the East side of the Mint building we need a new settling-well immediately North of the East Spiral stair-case.

These wells will of course be covered and will not interfere with the proposed corridor immediately in the rear of the large storage vault in the basement.

Respectfully

D M Fox

I have to day shipped to the Assistant Treasurer of the United States at New York $5000 in 5-cent Copper-nickel coins, in part payment of transfer order of $10000.- for that office.

These coins were sent to the exclusion of prior orders standing on our books for other parties. The remaining $5000, will be shipped as soon as we can get the coins out

Very respectfully

Dan'l M. Fox

Superintendent

Hon James P. Kimball
Director of the Mint
Washington
D.C.

Mint of the United States at Philadelphia, Pa.

SUPERINTENDENT'S OFFICE.

11: October 1889

Sir;

In pursuance of the public advertisements proposals were opened at my office in the Mint on the 1st Oct. inst. at 12 o'clock noon, to supply the Mint with 50.000 pounds, more or less of 5-cent copper-nickel blanks, and 100.000 pounds, more or less of one cent blanks.

The following proposals were received and were opened in the presence of all the bidders:—

		5¢ blanks	1¢ blanks
Russell & Co	per lb.-	65 1/4 ¢	35 1/4
Rowland A. Robbins	" "	59 9/10	34 9/10
Benedict & Burnham Mfg. Co	" "	49 1/2	29 1/4
Seville Mfg. Co:	" "	48 7/8	29 1/4
Merchant & Co.	" "	40	26
R. H. Cramp & Co	" "	38	25

The lowest bidders R. H. Camp & Co's proposals are very much below the average, are respectable brass founders in the Northern part of this City, but I ascertained by sending our Master Machinest to investigate, that they have no facilities for doing the work, and upon being interrogated frankly admitted that if they got the contract they would be obliged to get the work done by other parties.

The next lowest bidders - Merchant & Co. - are respectable metal dealers in this City but I am not advised that they are in possession of facilities for doing this kind of work, and the conclusion I have arrived at under all the circumstances is that the better policy would be to reject all proposals and readvertise

on short notice, with a clause in the advertisement limiting the proposals to such parties as are in position to contain-by furnish the amount and kind of blanks we require, and without any interruption in the deliveries.

The annulment of a Contract if given to the lowest bidder, & the forfeiture of a bond in whatever amount, would be no compensation for disappointment in getting the blanks on time to enable us to supply without break or hindrance the continued and undiminished demand for our Coins

I herewith enclose all the proposals together with a subsequent Communication from Mr. Joseph Wharton, our present Contractor; and also a letter from Merchant & Co, with reference to their proposition; and

submit the entire subject for your consideration.

To enable us to maintain the continuity of our 5-cent nickel coinage pending readvertisement and the making of new contracts as suggested - Mr Joseph Wharton makes a verbal proposition to supply the Mint - with your approval - with an additional 50,000 lbs. of 5-cent copper-nickel blanks at the rate specified in his present contract, namely, 42 1/10 ¢ per lb. deliverable as called for.

In this connection I beg to suggest that I should be authorized to make requisition upon him as soon as I find it necessary, for the remaining 50,000 lbs. of one cent blanks still due under the present contract; -

Very respectfully

Dan W. Fox

15: Octobr 89

Sir,

Before making the correction in the memorandum enclosed in your letter of the 14th inst. of Charges-and-Change Bar and Sweep-bar from the Denver Mint, I beg to explain that no changes in the technical meaning of that term have been imposed. As these bars are transferred to us to be coined into coin, we have merely added the cost of the Alloy which this Mint would be obliged to put into those bars to make them suitable for Coinage, and which, if we [illegible] charge for, would be that much of a [illegible] to this Mint, without any apparent [illegible]. If that is your intention, that this Mint is to furnish the alloy gratis

and that is to be the rule hereafter, do me the kindness to so advise me and we will alter the memorandum accordingly. The "Charge" as it now stands, is merely a reimbursement to this Mint for an actual outlay, viz: the cost of the Alloy

Very respectfully

D. C. McFee

17: October 9

Sir

Enclosed please find the Statement prepared for your annual report by the Medal Clerk, called for in your letter of the 16th inst., which I hope will answer your purpose

Very respectfully
[illegible]
Superintendent

Hon. E. J. Leech
Director of the Mint
Washington
D.C.

During the fiscal year of 1889, the number of medals sold was 1004, of the value of $1141.85. Proofsets of the coinage of the year were sold to the number of 2863 for which was received $3179.08, also 1397 single pieces, for which was received $2799.25. The net profit on the sale of medals and proof coin was $2037.66.

17 October 9

Sir;

Respectfully referring to your letter of the 11th inst. with regard to a deposit of silver forwarded by Lewis J. Poisson, Wilmington, N. C., I beg to explain that the rejection of deposits under one hundred dollars in value has always been the rule of the Mint to protect the institution from annoyance and imposition, especially so under the enormous pressure upon the Mint of recent years for coinage on Government account. Deposits of less value than 100 dollars sometimes get on our books, because upon melting and assaying the actual value proved to be much less than the estimate from appearances.

We also make exceptions under special circumstances: For instance if a poor widow comes with a handful of silver spoons and forks - all she has left in the world which necessity compels her to turn into money, we receive her deposit, as an act of humanity.

So near as the Weigh-Clerk can recollect, the deposit received from Mr Poisson was worth only about 20 or 25 dollars. The letter of advice accompanying it was silent as to the circumstances under which it came. If he had mentioned that it was sent by your direction, it would of course have been received and returns made accordingly.

Very respectfully
A. M. Clapp
Superintendent

Hon: E. O. Leech
Director of the Mint
Washington

17: Octobr 9

Sir;

Upon the receipt of your telegram of the 15th inst. Conditionally awarding the new Contracts for minor Coin blanks to Merchant & Co; I immediately sent for them by special messenger.

They promptly acceded to your terms and expressed their ability and readiness to commence deliveries in 10 days.

Contracts were yesterday prepared in duplicate and signed by myself and one member of the firm, who subscribed the firm-name for, which would be sufficient in law, but the other partner is out of town and his signature cannot be obtained for a day or two, and I retain the Contracts until they are fully Cu-

pleted in that way.

A bond in $10.000 was also prepared and handed to them yesterday and I am in momentary expectation of its return properly executed.

I herewith enclose for your information a copy of a Communication addressed to them yesterday stating what would be expected of them under the Contracts. They have been supplied with specimen blanks and all other information necessary to enable them to do the work properly

Very respectfully

David McFon

19 October 9

Sir;

In the closing paragraph of my letter of the 11th inst. forwarding the proposals for 1-cent and 5-cent blanks, I suggested the propriety of making requisition upon Mr Joseph Wharton the present Contractor for the 50.000 pounds of 1-cent blanks for which we have a right to make requisition under his contract — in order to keep it moving — but in your reply of the 15th inst. you make no allusion to that subject.

Under the Continued demand for coins Mr Wharton received the impression that the balance available under the Contract would doubtless be called for, and he has made preparations to get them out.

I write now to ask whether it is your intention to authorize that final 50.000 pounds to be called for, or whether his contract that terminate with the delivery of the current 50.000 pounds for which requisition was last made.

I enclose herewith a copy of a communication received from Mr Joseph Wharton, this morning, on this subject.

Please give the matter your consideration and favor me with a reply at your convenience

Very respectfully
D. M. Fox

Copy

American Nickel Works,

Camden N. J. Oct. 17th 1889

Hon D. M. Fox, Supt, U. S. Mint.

Dear Sir;

If you can inform me within a few days whether the Mint wishes me to deliver the 50.000 lbs, of bronze blanks still due to it under my contract, I should be obliged by your doing so.

The bronze alloy used for this purpose has no other use, and it must be prepared in time to go through its various processes before the Mint is in want of blanks. Counting on the order being given for the final 50.000 lbs. (since I have been informed that you want to ask for authority to order it) a part of the alloy has been made. There still remains to be delivered to the Mint by me on existing orders, Nickel-Copper 5ct blanks 9.500 lbs.

Bronze 1ct " 14.100 "

This reckons as delivered, the blanks which had left the factory up to last night. The above named 5 cent blanks fill my contract. The above [illegible] Bronze, fill existing order, & I leave due by me on contract [illegible]

Yours truly

Joseph Wharton

18: October 9

Sir;

I have this morning received from the New York County National Bank of New York City, a remittance of $6000 for 1 cent pieces, coupled with the information that they are unable to get all they want at the Sub Treasury in that City.

Shall I accept this remittance and furnish the Coins?

Please advise me by return mail?

Very respectfully

Sir:

In conformity with the provisions of Sect. 3554 Revised Statutes, and on the recommendation of the Owner herein enclosed, I have appointed Miss Virginia C. Hoyer an Adjuster in this Mint at $2.00 per diem — Mrs. Ellen E. Hoyer, resigned — to take from date of oath, and submit the same your approval

Very respectfully
[illegible]
Superintendent

23: October 9

Sir;

The information contained in your personal note of the 19th inst, to our Mr. Cowperthwait, is very instructive and suggestive but will hardly serve the purpose of an official voucher.

For my information and guidance as well as safety, will you be good enough to address a similar note to me officially that I can place on file, and fall back upon as a justification for the manner in which I shall turn over this institution to the next Superintendent.

Very respectfully

Superintendent

Hon C. C. Leech
Director of the Mint
Washington D.C.

23: October 9

Sir

The stream of remittances for Municipios will keep up and promises to do so indefinitely.

By the 1 Nov. prox.o a supply of Bank acknowledgments of the receipt of these remittances, will be required for the service of this Mint, after the enclosed form, and I respectfully make requisition for the same. There should be at least one thousand.

I sincerely desire also that there should be a space of at least 2 inches at the bottom of the form to make room for

special answers which are sometimes necessary

Very Respectfully

D. M. Fox
Superintendent

Hon. P. A. Leach
Director of the Mint
Washington

SUPERINTENDENT'S OFFICE.

October 24th, 1889

Sir:

Kindly inform me by return mail, whether it will be necessary to deposit in the U.S. Treasury, the balances of the Ordinary, Standard Silver Dollar and Refinery Accounts on hand on the 31st inst. Also the balance in the hands of the Asst. Treasurer, N.Y. for the purchase of Silver.

It has been the custom heretofore, to follow this course when a change has been made in the Superintendency.

Very Respectfully.

Supt.

Hon. E. O. Leech.
Director of the Mint.
Washington.
D.C.

Sir

I herewith transmit for your approval, contract with Merchant C to furnish 100,000 pounds of one cent blanks;

Also, their contract to furnish 50,000 pounds of 5-cent blanks.

Having satisfied myself of the sufficiency of the Surety, I have approved, and also enclose their bond given to enforce the Contracts

Very respectfully

28. Oct. 1887

Sir,

In reply to your inquiry of the 26th inst., I have to inform you that the silver half-dollar from "The Lyman Agency, Kalamazoo, Michigan," was duly received, and its bullion value, 33¢, was returned to that agency by mail on the 21st. Oct. inst.

Respectfully

D. M. Fox
